Education

2010-2014
High school bachelor

Liceo Alfaro Ruiz

2020-2024
Bachelor in Systems engineering

Universidad Americana

Technical skills

Development tools
- PyCharm
- Visual studio code
- Jira
- GitHub

Programming languages
- Python
- C#
- HTML, CSS
- NodeJS
- Java

Databases
- MongoDB
- Microsoft SLQ server
- MySQL

Methodology
- Scrum

Language

Spanish - native

English - Upper intermediate B-2

JOSE ALBERTO MIRANDA
System Engineer & Software Developer

I am a recently graduated Systems Engineer with practical experience in developing applications using technologies like Node.js and .NET. I am passionate about creating efficient and scalable solutions while collaborating in dynamic development teams. I am a quick learner, always eager to improve my skills and adapt to new challenges in the software development field.

Experience

Projects

Real Estate Portal
Created a platform for visitors to register, verify accounts, and post properties with descriptions, photos, maps, and a contact form for inquiries.
Technologies: Node.js, Express, MySQL, Sequelize, MVC, Pug, Webpack, TailwindCSS, Dropzone, Leaflet, JWT.

Job Platform for Programmers
Developed a job board where recruiters post vacancies and programmers apply with resumes. Features file uploads, email alerts, and notifications.
Technologies: Node.js, MongoDB, Mongoose, Handlebars, MVC, Express, Axios, Webpack, Multer, Nodemailer.

Community Event App
Built a Meetup-inspired platform for creating accounts, posting events, and finding nearby activities with maps.
Technologies: Node.js, PostgreSQL, Sequelize, EJS, MVC, MomentJS, Leaflet, Multer, Passport, Nodemailer, Webpack, Axios, SweetAlert, PostGIS.

Softskills

- Teamwork
- Communication
- Problem-solving
- Listening
- Questioning
- Logical and analytical thinking
- Detail orientation
- Initiative
- Decision-making
- Stress-management
- Adaptability
- Openness to criticism
- Creativity
- Time management and organization
